

Activity #10

Group #1:

Select a target population and target behaviors. Describe all steps of the planning, implementation and evaluation of a token economy treatment program and the various things you would have to consider at each phase of the program.

Group #2:

Discuss classroom management from a humanistic perspective. Describe specific strategies, name major theorists/proponents, and discuss the strengths and weaknesses of this approach. Provide some practical suggestions for classroom management based on the humanistic approach.

Group #3:

Discuss classroom management from a democratic perspective. Describe specific strategies, name major theorists/proponents, and discuss the strengths and weaknesses of this approach. Provide some practical suggestions for classroom management using natural and logical consequences and other aspects of the democratic approach.

Group #4:

Discuss classroom management from a strict behaviorist perspective, including Positive Behavioral Support (PBS). Describe specific strategies, name major theorists/proponents, and discuss the strengths and weaknesses of this approach. Provide some practical suggestions for classroom management using reprimands and other aspects of the behavioral approach.
