

Chapters 14 & 15 – Group Discussion / Application Activity

Group 1:

You are a group of teachers and counselors developing an after-school multi-family parent workshop. You are expecting attendance by parents of a wide age range of students. Your goal is to educate parents about the influences parents and families have on children, and particularly their academic achievement. What are some key points your workshop should address?

Group 2:

You are members of a school improvement team on a committee whose task is to research and implement programs and curricular modifications to improve student relations among peers. What would you advise your principal regarding this topic?
